

CORONAVIRUS

CREATIVE MOJO IS READY WHEN YOU ARE FOR YOUR HOME TO GET IT'S MOJO BACK!

As you know our activities are crucial to the mental health and wellbeing of your residents and because of this your residents' health during the Covid pandemic is of utmost importance to us.

This is why we want all our clientele to know Creative Mojo Head Office have introduced a number of strict cleaning guidelines, involving the cleaning of out kits, tools and hands before and after visits.

All homes must have a preliminary meeting prior to any classes taking place and only then sign the policy and procedures form on the next page to confirm they are happy with our protective measures.

Procedures to prevent the spread of Coronavirus:

1 Hand hygiene must be maintained through the workshop.

- Residents hands will be washed or wiped with antibacterial wipe after each session and we would welcome care home staff assistance with this.
- We will wash our hands before and after visits.

2 Limiting close contact with others as much as possible.

- Class sizes are limited to up to 10 residents at once, spaced out with at least one seat in-between. If you prefer a "drop in" session over a longer period of time, there is no limit to the class sizes.
- Residents will not share materials, brushes, paint, or shapes, Individual palettes and packs will be provided to avoid cross contamination.

3 Cleaning

- All equipment is to be wiped down with antibacterial wipes, or spray with antibacterial spray.
- We will disinfect tables after our visits.

4 PPE will be provided by myself or the home depending on agreement and a Covid test will be completed before we enter the home.

5 Communicating with the home.

- If at any stage we show symptoms or feel unwell we will halt visits to any homes until we are deemed fit again to do so.
- If anyone in the home tests positive for Covid, we must be informed as quickly as possible to avoid cross contamination to other homes.

CORONAVIRUS
